The Complete Walker IV Colin Fletcher, Chip Rawlins, 2015-11-17 For the first time since 1984, we have a new edition of the classic book that Field & Stream called “the Hiker’s Bible.” For this version, the celebrated writer and hiker Colin Fletcher has taken on a coauthor, Chip Rawlins, himself an avid outdoorsman and a poet from Wyoming. Together, they have made this fourth edition of The Complete Walker the most informative, entertaining, and thorough version yet. The eighteen years since the publication of The Complete Walker III have seen revolutionary changes in hiking and camping equipment: developments in waterproofing technology, smaller and more durable stoves, lighter boots, more manageable tents, and a wider array of food options. The equipment recommendations are therefore not merely revised and tweaked, but completely revamped. During these two decades we have also seen a deepening of environmental consciousness. Not only has backpacking become more popular, but a whole ethic of responsible outdoorsmanship has emerged. In this book the authors confidently lead us through these technological, ethical, and spiritual changes. Fletcher and Rawlins’s thorough appraisal and recommendation of equipment begins with a “Ground Plan,” a discussion of general hiking preparedness. How much to bring? What are the ideal clothes, food, boots, and tents for your trip? They evaluate each of these variables in detail—including open, honest critiques and endorsements of brand-name equipment. Their equipment searches are exhaustive; they talk in detail about everything from socks to freeze-dried trail curries. They end as they began, with a philosophical and literary disquisition on the reasons to walk, capped off with a delightful collection of quotes about walking and the outdoor life. After a thoughtful and painstaking analysis of hiking gear from hats to boots, from longjohns to tent flaps, they remind us that ultimately hiking is about the experience of being outdoors and seeing the green world anew. Like its predecessors, The Complete Walker IV is an essential purchase for anyone captivated by the outdoor life.

Nepal Himalaya H. W. Tilman, 2013-01-28 There can be no country so rich in mountains as Nepal. This narrow strip of territory, lying between Sikkim and Garhwal, occupies 500 miles of India's northern border; and since this border coincides roughly with the 1,500-mile-long Himalayan chain, it follows that approximately a third of this vast range lies within or upon

the confines of Nepal. So starts this breathtaking account of mountaineering and exploring this isolated and awe-inspiring country by one of the most famous men in mountaineering. Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

Mammals of North America Nora Bowers, Rick Bowers, Kenn Kaufmann, 2004 This compact, comprehensive field reference treats every species of wild mammal found north of the Mexican border--from squirrels and chipmunks to grizzly bears and jaguars--as well as those in North America's offshore waters. More than 1,200 images.

A Walk in the Woods Bill Bryson, 2012-05-15 God only knows what possessed Bill Bryson, a reluctant adventurer if ever there was one, to undertake a gruelling hike along the world's longest continuous footpath—The Appalachian Trail. The 2,000-plus-mile trail winds through 14 states, stretching along the east coast of the United States, from Georgia to Maine. It

snakes through some of the wildest and most spectacular landscapes in North America, as well as through some of its most poverty-stricken and primitive backwoods areas. With his offbeat sensibility, his eye for the absurd, and his laugh-out-loud sense of humour, Bryson recounts his confrontations with nature at its most uncompromising over his five-month journey. An instant classic, riotously funny, *A Walk in the Woods* will add a whole new audience to the legions of Bill Bryson fans.

Wild Cheryl Strayed, 2012 'One of the best books I've read in the last five or ten years... Wild is angry, brave, sad, self-knowing, redemptive, raw, compelling, and brilliantly written, and I think it's destined to be loved by a lot of people, men and women, for a very long time.' Nick Hornby

Backpacking Wyoming Douglas Lorain, 2010-09-29 Traverse 28 carefully crafted backpacking trips to some of the most magnificent landscapes in Wyoming. A person could spend several lifetimes in Wyoming and barely scratch the surface of its wilderness areas and wide open spaces. Backpackers can find complete solitude and explore some of North America's most amazing scenery—not to mention Yellowstone and Grand Teton national parks, the Beartooth and Bighorn mountains, and more. *Backpacking Wyoming* details the premier backpacking opportunities in the Cowboy State. How to Shit in the Woods Kathleen Meyer, 2011 It's the feisty third edition of *How to Shit in the Woods*, jam-packed with new information for outdoor enthusiasts of every stripe. Hailed in its first edition as the most important environmental book of the decade by *Books of the Southwest*, and in its second as the real shit by the late, great, outdoor photographer Galen Rowell, this bestselling guide is often called the backpacker's bible and has sold more than 2.5 million copies in eight languages. Author Kathleen Meyer continues to pioneer the way with her inimitable voice—at once humorous, irreverent, and direct—examining the latest techniques for graceful backcountry elimination, and answering a desperate cry from nature concerning environmental precautions in our ever-shrinking wilds. World changes come fast and furious, and in the backcountry it is no different. The practice of packing-it-out, adopted to protect high use areas and fragile eco-systems, is here to stay. We are now often urged to haul our poop home. Or with increasing frequency, the whole business is mandatory. To assist with all this responsible human waste disposal, Meyer's new edition features the latest in product innovations, from

classy high-tech to inexpensive do-it-yourself. She covers the most current solutions to the health risks of drinking straight from wilderness waterways; presents a raft of natural substitutes for the purist swearing off toilet tissue; and offers a wealth of new recommendations for ladies who must make do without a loo. This down-to-earth guide has been employed as a training aid for scout troops, outdoor schools, and wilderness programs for inner-city youth; for rangers with the U.S. Forest Service, National Park Service, and Bureau of Land Management; as well as for whitewater rafting guides, backcountry outfitters, and members of the military. In rowing hundreds of urbanites down whitewater rivers, Meyer honed her squatting skills and found she wasn't alone in the klutz department. Her delightfully shameless discussion of a once-shameful activity, her erudite examination of its associated vocabulary, and her unapologetic promotion of its colorful vernacular make *How to Shit in the Woods* essential and vastly entertaining reading for anyone who's ever paused at the edge of the forest and pondered: Where do I go to go ?
